EXPERIENCE

Edraak soft Sana'a, Yemen
UX/UI Designer | Application Designer 2024

- Managed digital marketing initiatives as part of the Edraak team
- Contributed to the development of core accounting features during my time at Edraak Soft, focusing on logic and workflows
- Designed and built a responsive travel website with user-focused interface and booking features
- Developed a mobile app for managing charitable donations, including authentication, case tracking, and online payment
- Worked with my university team to create a complete system for managing IoT operations (devices, services, and users)
- Built a simple car rental website using Laravel, including basic booking and vehicle management features
- Created a personal website to display projects, skills, and contact info
- Currently at 60% proficiency in UI/UX design, with working knowledge of tools like Figma and FlutterFlow

EDUCATION

National University Sanaa, Yemen
Bachelor's Degree in Information Technology 2021 - 2025

- GPA: Excellent

PROJECTS

Takaful Project - Charity Donation Platform 05/2024
Sana'a, Yemen

Developed a full-featured mobile donation app with authentication, case tracking, and online payments. Designed system architecture and database using Flutter and Laravel, focusing on usability and real-time performance.

- Designed and developed a full mobile app for charitable donations as a graduation project
